Dear Friends,

This week is our walk to school week. We have to walk all week to school. We need to save energy and stop pollution. You will exercise on the way to school. Some people walk in groups but at least they walk to school. You will win a grand prize of a golden shoe.

Today most off us in year 5 and 6 walked and 1 person went in a car cause it was too far to walk. Walking is better than driving, you will enjoy walking to school because it is a bit of fresh air.

It will be fun if you walk to school last week we had a lady come in to test the speed on a 30 mph road. We had a piece of paper and wrote the speed of the cars some people went over 30 and 40. The petrol is too expensive for all cars. Its usually about £10.00 but now its about £50.00. Its over prised all the time. So please walk to school to save petrol, energy and pollution.

Best Wishes

Caitlin Polson
